

## Scorpion™ ToTrail™ Towable Road Trailer

**Scorpion™ ToTrail™ Towable Road Trailer** is a convenient solution for transportation of Response Equipment such as Oil Booms, Powerpacks, Skimmers as well as Ancillary equipment. Its **frame** is manufactured using **reinforced, Hot-Dip Galvanized (HDG) steel** while sides and floor can be chosen between marine grade plywood or punched steel.

**Scorpion™ ToTrail™ Towable Road Trailer** can also be fitted with Scorpion™ Boom Storage Reels. Its heavy duty, dual axis, four-wheeled chassis is fitted with powerful brakes and suspension springs, to support **loading capacities of up to 2500kg**.

**Scorpion™ ToTrail™ Towable Road Trailer** is produced in conformity with 2007/46/EC and it comes in various capacities, designed to **fit in a container**.

### Scorpion™ ToTrail™ Towable Road Trailer Features
