

Scorpion™ Oil Absorbents

Scorpion™ Oil Absorbents are the perfect solution for oil recovery. Made of **100% non-woven melt-blown polypropylene fabric**, with **excellent oleophilic properties**, they can **absorb up to 15 times their weight in oil** and most of hydrocarbon – based chemicals. Due to their **hydrophobic properties**, they **float even fully saturated with oil**. They are highly **flame-resistant** and they **can be incinerated with less than 0.02 % ash**.

Scorpion™ Oil Absorbents need no special equipment for application and recovery. **Made of nontoxic material**, they have **long storage life**. Reusable up to 5 times with constant performance, they come packed in heavy duty polyethylene film bag for indoor or outdoor storage, in a **variety of types, covering all oil spill response operational needs**.
