- Made from polypropylene fabric

New Naval Scorpion Oil Absorbents (Pads, Rolls, Booms, Socks, Pillows, Granules and Particulates) are an ideal solution for nearshore and inland oil recovery. Made of 100% non-woven, melt-blown polypropylene fabric oil absorbents have excellent oleophilic properties. New Naval absorbents absorb up to 25 times their weight of most hydrocarbons. Due to their hydrophobic properties, the absorbents float even when fully saturated with oil. The absorbents need no special equipment for application and recovery. Made of non-toxic material Reusable up to 5 times with constant performance.

- Absorbents are highly flame-resistant and can be incinerated with less than 0.02 % ash
- Long storage life as absorbents will not rot or mildew
- Absorbents come packed in heavy-duty polyethylene film bag for indoor or outdoor storage in a variety of types.
