

# ScorStore Boom Reel

## REEL FEATURES

- Versatile boom operations
- Hydraulically driven
- Reel brake
- Variety of options including trailer (complaint with EU regulations) cover and remote control
- Tailor-made reel solutions

The ScorStore Boom Reel is a highly efficient way to store, transport and rapidly deploy/recover oil boom. The reel is manufactured with highly durable Hot-Dip Galvanized (HDG) steel and a Glass Reinforced Plastic (GRP) or aluminum spool. The reel can store up to 250 meters of various types of Scorpion Oil Containment Boom, with tailor-made reel options available. The reel is hydraulically driven and incorporates a break system for increased safety. The reel allows boom operations to safely deploy and recover boom from a variety of scenarios including offshore, nearshore and inland operations.

- Storage capacity up to 250 meters of oil boom
- Light-weight system with optional forklift pockets or lifting eyes
- The glass spool is light-weight, rust-proof and requires no maintenance eliminating costs
- Hydraulically driven intended for use with New Naval Hydraulic Power Packs, electric power packs and diesel power packs
- Reels can be tailor-made to client needs and specifications
- Optional EU Complaint tow trailer, cover (HD PVC Tarpaulin) and remote control
