

Containment Ancillary  
Equipment Transport

# ScorStore Trailer

New Naval

The ScorStore Trailer is a practical solution for the transportation of a variety of equipment including oil booms, power packs, skimmers and ancillary equipment among other options. The trailer is designed to be towed by operation vehicles capable of towing capacities up to 2500 kg. The trailer can be fitted with Scorpion Boom Storage Reels for easy transport and deployment of boom. The trailer comes in various capacities and sizes, customized to fit the operational needs of the user. The basic trailer is designed to fit in a standard 20' container.

## TECHNICAL SPECIFICATIONS

Storage Capacities for Boom Reels	up to 300m
Frame	Reinforced Hot-Dip Galvanized Steel
Sides	Marine Grade Plywood or HDG Punched Steel Plate
Floor	Marine Grade Plywood or HDG Steel Plate*
Dimensions (LxWxH)	Dependent on specifications
Load Capacities (max.)	2500 kg

\* or HDG Punched Steel Plate

## TECHNICAL DATA

The trailer's frame is manufactured with reinforced, Hot-Dip Galvanized (HDG) steel. The sides and floor can be manufactured with marine grade plywood or punched steel depending on client specification. The heavy duty, dual axis, four-wheeled chassis is fitted with brakes and suspension springs, supporting load capacities up to 2500 kg. The trailer conforms to 2007/46/EC standards and it comes with rust prevention. The system can be tailored to operational needs dependent on client needs

### TRANSPORT:

- Pumps
- Air Inflators
- Hydraulic Boom Reel
- Storage Crates/Storage Rack
- Hydraulic Power Packs
- Skimmers
- Temporary Storage
- Customized Set-up

### TRAILER OPTIONS:

- Custom Paint
- Client Logo
- Secondary Lighting

### KEY FEATURES:

- Towable road trailer for a variety of equipment such as Booms, Skimmers, Absorbent Kits, etc.
- Robust construction with customizable design options
- Dual axis, four-wheel chassis
- 2007/46/EC Certified
- Configurable to operational needs
