

ScorPack 7.5 kW (Hydraulic)

POWER PACK FEATURES

- Provides 7.5 kW of hydraulic power
- Compact and simplistic design
- Collapsible handles and wheels for ease of transport
- Protective and robust frame
- Custom options available

The ScorPack 7.5 kW (Hydraulic) is a compact hydraulic power pack intended to power equipment with minimal power requirements. The robust design of the power pack makes it ideal for operation in harsh environments. The power pack is portable, allowing it to be transported over difficult terrains and operated in challenging locations. The system can easily operate a hydraulic-driven Scorpion Boom Storage Reel or oil skimmer, such as the ScorLip 105 Weir Oil Recovery Skimmer.

- The frame is constructed of Hot-Dip Galvanized (HDG) Steel
- The power pack is fitted with a 4-stroke, air-cooled Yanmar™ diesel-driven engine
- The frame comes equipped with handles and wheels increasing ease of transport
- The power pack comes with a complete hydraulic hose set
- All hydraulic hoses are fitted with quick couplings connections that include protective dust caps
- The system can be customized with an assortment of additional options specific to operational needs and customer desire
